

THE REPORT
OF
THE PRESIDENT
OF
QUEEN'S COLLEGE, BELFAST,
FOR
THE YEAR 1899-1900,

Presented to both Houses of Parliament by Command of Her Majesty.

COLLEGES ACT,
8th and 9th Vict., cap. LXVI., sec. 30.

DUBLIN:
PRINTED FOR HER MAJESTY'S STATIONERY OFFICE,
BY ALEXANDER THOM & CO. (LIMITED), ABBEY-STREET.

And to be purchased, either directly or through any Bookseller, from
HODGES, FIGGIS, & CO. (LIMITED), 104, Grafton-street, Dublin; or
EYRE AND SPOTTISWOODE, East Harding-street, Fleet-street, E.C., and
32, Abingdon-street, Westminster, S.W.; or
JOHN MENZIES & CO., Rose-street, Edinburgh, and,
20, West Nile-street, Glasgow

1900.

[Cd. 278.] Price 4d.

SALE OF GOVERNMENT PUBLICATIONS.

The under-mentioned Firms have been appointed sole Agents for the sale of Government Publications, including Parliamentary Reports and Papers, Acts of Parliament, Record Office Publications, &c., &c., and all such works can be purchased from them either directly or through retail booksellers, who are entitled to a discount of 25 per cent. from the selling price.

IN ENGLAND:—

For all publications excepting Ordnance and Geological Maps, the Hydrographical Works of the Admiralty, and Patent Office Publications:—Messrs. ERIC AND SPOFFS-WOODS, East Harding Street, E.C.

For Geological Maps:—Mr. E. SWANFORD, Cockspur Street, S.W.

For Hydrographical Works of the Admiralty:—Mr. J. D. POTTS, 31, Poultry, E.C.
Patent Office Publications are sold at the Patent Office.

For all Publications excepting the Hydrographical Works of the Admiralty and Patent Office Publications:

IN SCOTLAND:—Messrs. JOHN MENZIES & Co., Ross Street, Edinburgh, and 90, West Nile Street, Glasgow.

IN IRELAND:—Messrs. HODGES, FIGGIS & Co., LIMITED, 104, Grafton Street, Dublin.

ORDNANCE SURVEY MAPS OF GREAT BRITAIN AND IRELAND:—There are Agents for the sale of these Maps in most of the chief towns. Copies can also be ordered at many Head Post Offices, and through any Bookseller, or from the Director-General Ordnance Survey, Southampton; or, in the case of Ireland, from the Officer in Charge Ordnance Survey, Dublin.

The following is a list of some of the more important Parliamentary and Official Publications recently issued:—

Parliamentary:

Statutes—

Public General Session 1899. With Index, Tables, &c. Cloth Price 7s.
Second Revised Edition. A.D. 1235-1712 to A.D. 1872-1893. XV Vols. Price 7s. 6d. each.

Revised Editions. Tables showing subsequent Repeals, effected by Acts of Session 62 & 63 Vict. 1899. Price 6d.

Statutes in Force. Index to. 15th Edition. To end of 62 & 63 Vics. 2 Vols. Price 10s. 6d.

The Statutory Rules and Orders revised. Statutory Rules and Orders, other than those of a Local, Personal, or Temporary Character, issued prior to 1890, and now in force Vols. I. to VIII. Price 10s. each.

Statutory Rules and Orders other than those of a Local, Personal, or Temporary Character. With a List of the more important Statutory Orders of a Local Character arranged in classes; and an Index. Roy. 8vo. Boards. Bound in the years 1890, 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898 and 1899. Price 7s. 6d. each.

Statutory Rules and Orders in force on 31st December, 1899. Index to. Price 10s. 6d.
Statutory Rules and Orders, 1900. Registered under the Rules Publication Act, 1893. In course of issue.

Acts of Parliament, Public and Local and Private, Session 1900. In course of issue.

[H.C. No. 134/1900.] COAL. Tables showing Production, &c., 1882 to 1898. Price 6d.

[Cd. 250.] N.W. BOILERS. Memorandum respecting Water-tube Boilers in H.M. Ships. Price 1d.

[Cd. 166.] AGRICULTURAL RETURNS. Great Britain, 1899. Price 1d.

[Cd. 247.] INDUSTRIAL TRAINING OF GIRLS IN SCHOOLS IN THE METROPOLITAN DISTRICT. Report on. Price 1d.

[Cd. 167.] MINES AND QUARRIES. General Report and Statistics, 1899, Part I. Persons employed, output, accidents, &c. Price 6d.

[Cd. 262.] RAILWAY RETURNS FOR THE YEAR 1899, 1st Summary Tables. Price 1d.

[Cd. 190.] EDUCATION. Directory, with Regulations for establishing and maintaining Science and Art Schools and Classes. 1900-1901. Price 6d.

[Cd. 228.] FACTORIES AND WORKSHOPS. Annual Report, with Appendices. Price 6s. 6d.

[Cd. 120.] INDUSTRIAL ASSOCIATIONS OF THE UNITED KINGDOM. Labour Directory. Price 1d.

[Cd. 134 and 134¹ to 134¹³.] MINES. Reports of H.M. Inspectors for 1899. Summaries of the Statistical portion under the provisions of the Coal Mines Regulation Act, 1887; Metalliferous Mines Regulation Acts, 1872-1875; Slate Mines (Glamorgan) Act, 1882. Districts Nos. 1 to 13. Complete. Price 7s. 6d.

MINES in the United Kingdom and the Isle of Man. List of, for 1898. Price 3s. 6d.

QUARRIES. Ditto. ditto ditto 1898. Price 3s. 6d.

MINES ABANDONED. List of the Plans of. Corrected to 31st December 1898. Price 10s.

THE REPORT
OF THE
PRESIDENT OF QUEEN'S COLLEGE, BELFAST,
FOR THE
YEAR 1899-1900.

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

MAY IT PLEASE YOUR MAJESTY,

In accordance with the provisions of 8th & 9th Victoria, cap. LXVI., I have the honour to present to Your Majesty my annual Report on the condition and progress of Queen's College, Belfast, during the academic year 1899-1900.

I regret that my first note must be one of sadness. During the year death entered our gates and took away from us several of the most valued and respected members of our body. In August last we were bereft of

DR. JAMES CUMING,

Professor of Medicine, and I use no mere language of custom or convention when I say that by his demise the College lost one of its brightest ornaments, the community at large one of its ablest and most trusted physicians, and the medical profession in Belfast one who might truly be called its *praesidium et dulce decus*. Dr. Cuming's connection with Queen's College was almost life-long. He entered it as a student fifty years ago, and, after a brilliant academic career, marked at its successive stages by the high prizes and distinctions of various kinds which he gained, he entered on the practice of the profession which he was destined so signally to adorn. In 1865 he returned, as a professor, to the College where he had up till ten years before worn the student's gown, and it would be difficult to speak too highly of the services which he rendered in the thirty-four years during which he held office, not only to his own particular department, but to the entire establishment. It may truly be said that he loved the College. The broad foundations on which it is based had his warm approval, and, when opportunity offered, he never failed to do his utmost to advance its interests by every means in his power. We all feel that indeed a *hiatus valde defendendus*, and one not likely soon to be filled, has been left among us by his death. I am glad to be able to say that early in the Session a meeting was held for the purpose of considering the most fitting

means of perpetuating his memory in the College which he had served so long and well, and that it was resolved to have his portrait painted and hung in our Examination Hall. For the purpose of carrying out this resolution a committee was appointed, with Alderman James Graham, M.D., and Professor J. A. Lindsay, M.A., M.D., two of Dr. Cuming's old pupils, as hon. secretaries, and Professor Purser, LL.D., as hon. treasurer. The fact that in a very short time all the money required for the purpose was readily subscribed by the deceased professor's colleagues in College, and the members of the medical profession outside, speaks for itself, and we hope, therefore, at an early date to possess a painting of him which will serve to remind us, and tell generations of professors and students yet to come, what manner of man he was. I could wish that, in addition to this, the College could have a larger memorial of a man so eminent and so beloved, who was identified with the fortunes of the College for half a century. Perhaps we may even yet see it.

Another death which saddened us during the winter was that of

Dr. JOHN F. HODGES,

Professor of Agriculture and Lecturer on Medical Jurisprudence, which occurred in December last. The effluxion of time had left him the last survivor of the original band of professors who were appointed by the Crown in 1849—a noble band, which included, along with him, such eminent men as Thomas Andrews and George Lillie Craik and Charles MacDonall and George Dickie in the Faculty of Arts, and Hugh Carlisle and John Creery Ferguson and Alexander Gordon in that of Medicine, men to whom we must always look as the fathers of the College. Dr. Hodges had therefore been over half a century in office, and during all that long period he had enjoyed the confidence and esteem of successive generations of colleagues. This is not the place in which to speak at length of the conspicuous services which he rendered to the scientific agriculture of this country. But it is interesting to note, in this year which has seen the coming into operation of the Agriculture and Technical Instruction Act, on the working of which all lovers of their country are building new and confident hopes for the future of Ireland, that half a century ago Dr. Hodges was engaged in carrying out in his own way, and often at his own expense, ideas similar to those which lie at the root of the movement which has culminated in the passing of this Act. As College Lecturer on Medical Jurisprudence he took his share in the training of many generations of students, and all of these cherish, I am sure, the kindest memories of him. Outside our walls he filled many important offices. He was a Government Analyst, and in this capacity gave expert evidence in many an important trial. He was also analyst for several counties and for the city of Belfast, so that for a long time he occupied a large place in the public life of Ulster. I am glad to be able to report that at a meeting held in the College during the Session it was unanimously resolved

that his portrait should be painted and hung in the Examination Hall. A committee was appointed to carry out this resolution, with Professor Purser, LL.D., and Dr. Joseph Nelson as hon. secretaries, and Mr. Samuel McKee as hon. treasurer, and so heartily was the project taken up that in a short time the requisite funds were subscribed.

It was no easy task to fill the places left vacant by the removal of these two eminent men; but I am glad to be able to report that in both cases

SUCCESSORS

have been chosen, from whose labours in their respective spheres the best results may be anticipated. To the Chair of Medicine Dr. James Alexander Lindsay, of this city, was appointed by Warrant under the Royal Sign Manual. He is, like his predecessor, a distinguished *alumnus* of the College, and has long been known, not only as one of our leading consulting physicians, and a valued member of the staff of the Belfast Royal Hospital, but as one of our most cultured and widely-read citizens. That, in the judgment of those who knew him best, he was eminently fitted to take up Dr. Cuming's work, was clearly proved by two petitions urging his appointment, which were presented to me shortly after the Chair fell vacant. One of these emanated from, and was very largely signed by, students who had enjoyed the advantage of attending Dr. Lindsay's Clinical Lectures in Hospital, while the other proceeded from over 300 members of the medical profession in the North of Ireland. I need scarcely say, therefore, that his selection by Your Majesty for the Chair was received with much satisfaction alike in the College and the general community.

The Chair of Agriculture lapsed on the death of Professor Hodges, in accordance with arrangements made many years ago; but it became necessary to fill the Lectureship in Medical Jurisprudence which he had held, and, after lengthened and careful consideration, the College Council unanimously decided that Dr. J. Lorrain Smith and Dr. John Tennant should be asked to undertake the duties of this important office as Joint Lecturers. Of Dr. Lorrain Smith's eminent fitness for this duty it is unnecessary to speak. Since his appointment to our Lectureship on Pathology he has proved himself one of the ablest and most accomplished members of the College Staff, and has not only admirably presided over his own department, and acted as an Examiner in Pathology to the Royal University, but has been frequently called in by the Public Health Committee of the Belfast Corporation, with great advantage to the interests of the city, to investigate and advise on various complicated and complex problems connected with outbreaks of epidemic disease in the city. Dr. Tennant, whom we have now associated with him in the Lectureship on Medical Jurisprudence, has for several years been engaged in this College in various capacities, so that he may be said to be one of ourselves, and has proved himself a very able and accomplished worker. A graduate of the University

of Edinbrough, he had a singularly brilliant academic career—first graduating M.A. with First Class Honours in Classics, having previously been Senior Medallist and gained other high distinctions in the Greek and Latin classes of the University. In Medicine his course was equally distinguished. He was Medallist in the departments of Anatomy, Chemistry, Physiology, Pathology, Medicine and Midwifery, and took first place at a special examination held by Professor Crum Brown in Chemistry for the "Hope Prize." He is also author of several important papers in the Medical Journals, so that altogether there can be no question of his entire fitness for the office in which he has now been placed.

Just as this Report passes through my hands another terrible bereavement has fallen upon us. Suddenly and unexpectedly

DR. W. N. WATTS,

the Professor of English Law, was taken from us in the early prime of his great powers. It is not too much to say that the stroke has robbed the College of one of its most gifted sons and one of its best loved professors. An *alumnus* of our own, he had an academic record of rare distinction. In his own College, at the University, at King's Inns, and the Middle Temple, he achieved the most brilliant successes, and since his call, first to the Irish, and subsequently to the English bar, his career was one of rapidly increasing appreciation and distinction. He was chosen to fill office after office of trust and importance. The Benchers of King's Inns appointed him one of their Examiners in Law. He was Revising Barrister to the Corporation of Belfast previous to the passing of the recent Local Government Act, and up till the time of his death was Revising Barrister to the Belfast Harbour Commissioners. By the Lord Lieutenant he was appointed Revising Barrister for the county of Kilkenny, and, when the Chair of English Law in this College fell vacant by the resignation of Professor James Andrew Strahan in 1898, he was appointed his successor by the Crown out of a long list of candidates, while, this year, the Senate of the Royal University chose him as one of their Examiners in Law. His tenure of office in this College was sadly short. Little did we think, when he was appointed, that only two short years were to elapse ere his Chair was to be vacant. Brief as his career was, however, it was long enough to leave its impression upon the College, and more especially upon our Law School, of the prosperity of which he was justly proud. His profound knowledge, both of the principles and practice of Law, his remarkable faculty of lucid exposition, his self-sacrificing devotion to duty, his gentleness and amiability, and deep and constant interest in the work of his *Alma Mater*, and in the welfare of the members of his classes, endeared him to everyone, and have saddened us now with a sense of heavy and irreparable loss, which is only alleviated by the deep and generous sympathy of, I may say, the entire community.

Yet another figure, once familiar within our walls, has been taken from the land of the living during the year. The

REV. GEORGE HILL,

who for the thirty years from 1850 to 1880 was Chief Librarian of the College, died on July 4th, 1900, at the patriarchal age of ninety years. He will long be remembered not only for the fidelity, enlightened zeal, fatherly interest, and unfailing courtesy with which he presided over our Library, but for the deep research with which he investigated and elucidated the history of his native Ulster. The results of his patient inquiries he embodied in various volumes which have long been recognised as most valuable contributions to a department of Literature which stood much in need of the labours of so patient and accomplished a worker as he was. His "Plantation in Ulster," "The MacDonnells of Antrim," "The Stewarts of Ballintoy," and his edition of "The Montgomery Manuscripts," are not only monuments of his industry and erudition, but constitute valuable storehouses, full to repletion of important information, to which all who would clearly understand the past of the North of Ireland must continually resort. It is a source of great satisfaction to us, now that he is no more, that we possess a portrait of him which was presented to the College by a number of his admirers, and publicly unveiled by Mrs. Pirrie of Ormiston in 1897, in which the artist, Mr. Harry R. Douglas, has given us on the canvas a most faithful likeness.

The following eight Professors were in February last appointed

FELLOWS

of the Royal University:—

Professor Dougan, M.A., in Classics.

Professor MacMullan, M.A., in English.

Professor Park, M.A., D.LIT., in Mental and Moral Philosophy.

Professor Purser, M.A., LL.D., in Mathematics.

Professor Morton, M.A., in Natural Philosophy.

Professor Letts, D.Sc., in Chemistry.

Professor Cunningham, M.D., in Natural Science.

Professor Johnson Symington, M.D., in Anatomy.

The following eight Professors were appointed Examiners:—

Professor Graham, M.A., in Political Economy.

Professor FitzGerald, B.A., in Engineering.

Professor Newell Watts, LL.D., in Law.

D. J. Lorrain Smith, M.A., in Pathology.

Professor Byers, M.A., M.D., M.A.O., in Midwifery.

Professor Whitla, M.A., M.D., in Materia Medica.

Professor Thompson, M.D., in Physiology.

Professor Lindsay, M.A., M.D., in Medicine.

While speaking on this subject I may here express the pleasure with which I received the announcement during the Session that Professor Thompson had been elected an Honorary Member of the Imperial Military Academy of Medicine, St. Petersburg, in consideration of his important researches in several branches of Physiological Science.

Turning now to the students of the College, I have the pleasure of reporting that their attendance at the lectures of their several Faculties has been of the most regular and satisfactory character. From time to time the Registrar, at my request, furnishes me with lists containing the names of those gentlemen who appear to be at all remiss in this respect, and they are required to appear before me with such explanations as they are able to offer. I am glad to say that these lists appear to diminish in length each Session, and that in the great majority of cases valid reasons are forthcoming for such absences as have occurred. A statement of the numbers enrolled in each class will be found in the Appendix to this Report. The general tone and spirit of the students appear to me to be most satisfactory, and the long list of honours which they have gained during the year, not only in their own College, but at the Royal University and other seats of learning, proves that the marked ability and strenuous study which in the past have achieved for our *alumni* a splendid reputation for scholarship and talent, show no signs of waning. Our own

ENTRANCE SCHOLARSHIPS

were, as usual, competed for by a goodly band of youthful aspirants to academic fame, who came to us from the chief High Schools of the North of Ireland. The first place on the list of Literary Scholars was gained by a pupil of the Royal School, Dungannon, Mr. John Johnston, and the first place on the list of Science Scholars by a pupil of the Royal Academical Institution, Belfast, Mr. George Leatham, who is the fourth member of his family to win a high place on our roll of honour. The other schools, pupils from which succeeded in securing Entrance Scholarships, were the Methodist College, Belfast, from which two candidates were successful; the Royal Academy, Belfast; the Campbell College, Belfast; and Donaghy National School. The Royal Academical Institution, in addition to carrying off the First Science Scholarship, gained one Literary and two other Science Scholarships—four in all.

Last year I had the pleasure of reporting the interesting fact that a young lady had succeeded, for the second time in the history of the College, in gaining a high place on our Entrance Scholarship list. This year, two young ladies won this coveted distinction, while a third gained a Scholarship of the Second Year. All three came to us from the Methodist College, Belfast. I am happy to say that the number of young ladies who enrol themselves in the ranks of our students continues to grow, and that several of them have this year taken good places at the examinations of the Royal Univer-

sity, as well as on our own prize lists. I note with interest that women in Germany are eagerly taking advantage of the recent opening of all the academic Faculties in the University of Berlin to female students. Nearly 300 have been admitted for the present summer term alone. One would gladly hail the extension of a similar spirit among the ladies of our North of Ireland.

THE HONOURS

gained at the Royal University by students of this College have, as usual, been very numerous and very high. I note the following as deserving of special mention, and as illustrations of the manner in which the olden reputation of the College was maintained by those who presented themselves at the examinations of this University during the year. Of course it will be clearly understood that I only touch upon the most salient instances which occur to me.

At the examinations for the Degree of B.A. one of our students, Mr. R. F. Greer, headed the Honour List in Ancient Classics; another, Mr. S. A. Smyth, did the same in Mathematics; and a third, Mr. B. T. Vinecomb, took the only First Class that was awarded in Mathematical and Experimental Physics. It is satisfactory to find that in these three great departments Belfast students gained such places. In another branch of science which is specially important in Ulster, with its great manufactures—Chemistry—the honours won in the University by our students during the last twenty years, as shown by a return which I have recently seen, are significant. They comprise a Junior Fellowship, the pecuniary value of which is £200 per annum for four years, four Studentships (of £100 a year each for three years), and a total of honours of no less than fifty-two.

On the Medical side our students achieved some very notable successes. Dr. Thomas Houston, one of a family which has given us several brilliant men, was last autumn awarded a special Gold Medal for highly-distinguished answering at the examinations for the Degree of M.D., thus splendidly following up his success of the previous year, when he gained the much-coveted Medical Studentship of the University.

At the Spring Examinations of this year, of nine gentlemen who were placed by the Examiners in the Upper Pass division at the Second Examination in Medicine, all but two were Belfast men. Of the six similarly placed at the Third Medical Examination, three belonged to us, while another, Mr. Walter Phillips, B.A., was awarded the only Exhibition which was given. At the final examinations for the Medical Degrees, of two candidates who were awarded First Class Honours one was a Belfast man, and of the twenty-eight who in all obtained the degrees, fifteen were educated here. These facts and figures will, I think, be sufficient to show that in the Royal University the Belfast students have during the year ably maintained their usual position.

At other places it has been the same. At the examinations for the Army Medical Service during the year the second place was gained by one of our *alumni*, Dr. G. M. Irvine, who has since gone to the front in South Africa, where he is serving his country with characteristic efficiency. Another of our students, Dr. J. W. D. Megaw, took third place at the examination for the Indian Medical Service, and Dr. R. Steen fifth place. Dr. W. A. Osborne, who three years ago was appointed, on our nomination, to one of the Research Scholarships founded by Her Majesty's Commissioners for the Exhibition of 1851, and who, under the terms of that Scholarship, went to Germany to prosecute important researches, took during the year the degree of D.Sc. at the University of Tübingen *magna cum laude*, and has now been appointed Assistant-Professor of Physiology in University College, London. It is worthy of note, in passing, that all the four gentlemen whom we have nominated to these Scholarships since their establishment in 1891, and who have completed their period of service, have more than justified our choice by their subsequent careers. Dr. Benjamin Moore, the first of them, on the expiration of his Scholarship, after serving for a time as Assistant-Professor of Physiology in University College, London, was appointed to the Chair of Physiology in the University of Yale, and has just recently been elected Professor of the same subject in Charing Cross Hospital, London. The second, Mr. Frederick G. Donnan, gained three years ago a Junior Fellowship in the Royal University, and has this year been appointed Assistant to Professor Ramsay in University College, London. The third, Dr. Wm. Hanna, was, on the expiration of his Scholarship, sent out to India by Government to assist in inquiring into the nature and treatment of the plague which was ravaging the country, and now occupies a high position in the Plague Laboratory at Bombay. To this list is now to be added the success of our fourth Research Scholar, Dr. Osborne, to whom I have just alluded. It is evident that the appointment of all four gentlemen was not in vain, in the interests of science and of the country. Our

SCHOOL OF LAW

continues to win fresh laurels. Once more one of its pupils, Mr. William Johnston Purvis, B.A., has gained at the King's Inns Honour Examinations the John Brooke Scholarship, which is the highest honour open to students for the Irish Bar. This is the eighth occasion in nine years on which it has been carried off by a student of this College. I believe this to be an unexampled record. It would be a remarkable achievement for any College; but when it is borne in mind, first, that the John Brooke Scholarship is open to all Bar students, no matter where they have been educated, and second, that our School of Law is, in comparison with some others, but a small one, the magnitude of this long series of triumphs will be seen to be indeed great. At the same examination, another of our *alumni*, Mr. James Henry,

B.A., LL.D., was awarded the Society's Exhibition of £21 per annum for three years. At the LL.B. Examinations of the Royal University the only honour awarded was gained by one of our students, Miss Mary E. Clements, a young lady who, both at College and in her previous examinations in the Royal University, had highly distinguished herself. Mr. J. Sinclair Baxter, B.A., last summer gained, in competitive examination, the Reid Professorship of Constitutional and Criminal Law in the University of Dublin, while the candidate who took second place, Mr. R. R. M'Cutcheon, LL.B., another of our *alumni*, made such distinguished answering that he was awarded a special prize of £40. Mr. T. C. Houston, LL.B., has been appointed Registrar to the Court of Bankruptcy, Belfast. In England Mr. J. Stewart Wallace gained the great Vinerian Scholarship, the pecuniary value of which is £300.

At Cambridge during the year the election to a Fellowship in St. John's of Mr. W. A. Houston, M.A., who six years ago took fifth place in the Mathematical Tripos, the following year was placed in the First Class, First Division of Part II., and next year took the second Smith's Prize, fitly crowned a very distinguished academic career. Mr. Joseph Larmor, F.R.S., has added to his numerous laurels by being bracketed for the Adams Prize. In the University of London, Mr. John G. Leatham, M.A., and Mr. Ernest W. McBride, M.A., took the degree of D.Sc., the former gaining at the same time a Granville Scholarship.

There are some other distinctions won by our *alumni* which I feel I ought to mention. Mr. R. C. Heron, M.A., for example, has gained by competitive examination an appointment as Inspector of National Schools, his marks being the highest ever given under the present regulations. Mr. J. C. Galway, B.E., has obtained the office of Resident Engineer on the new Mourne Waterworks, which are being constructed for the service of the city of Belfast. With much pleasure we also recently learned that the high and well-merited distinction of C.B. had been conferred upon Mr. James B. Dougherty, M.A., Assistant Under-Secretary to the Lord Lieutenant, and Clerk of the Privy Council. All the gentlemen whom I have mentioned were in their time Scholars of the College, and their successes and distinctions, to which I have alluded, gave sincere pleasure to their *Alma Mater*.

Certain nominations to

COMMISSIONS

in the Royal Army Medical Corps were during the year placed at our disposal by the Secretary of State for War, and these we had the pleasure of giving to Dr. F. H. Stevenson and Dr. W. M. H. Spiller, two of our *alumni*. I had further the satisfaction of nominating in the Senate of the Royal University the following gentlemen to commissions in the regular army:—Mr. George G. J. Walshe, B.A., to a commission in the Royal Artillery; Mr. William Thomas Sinclair, ex-Scholar of the College, and Mr. John A. Ferguson, B.A., to commissions in the Infantry. The

authorities of the Chinese Imperial Customs also placed at our disposal two nominations to appointments in their medical service. These were conferred on Dr. T. E. Clements and Dr. D. Browne. It was a sincere gratification to us to be able to place so many of these appointments at the disposal of men educated within our walls.

I have received the following reports from the

DEANS OF RESIDENCES.

I give the reports in the order of the seniority of the Deans, who are charged, under the Statutes of the College, with the supervision of the faith and morals of the students of their respective creeds.

"St. Andrew's Rectory,

"University-square,

"Belfast, June 15, 1900.

"DEAR MR. PRESIDENT,—I have the honour and pleasure of reporting to you that the students of Queen's College, Belfast, who are members of the Church of Ireland, have, during the past Session, conducted themselves in all respects befitting their position in our College. Courteous and respectful demeanour is evident on all hands, and Christian morality appears to be universal amongst them. As in former years, the Christian Union began the Session by inviting a large number of the students under their respective Deans to meet together at a *Conversazione* in the Union Buildings. All the Deans aided in this proceeding, and much useful and edifying intercourse was the result. Other meetings for various beneficial purposes were held throughout the Session; and I have therefore much happiness in making the most favourable report. The Christian Union, I am happy to state, has been carried on under the control and approval of the Deans. Several deputations from English and American Universities paid visits to our Union, and stimulated the members thereof. The Friday Afternoon Meetings were maintained; and some of the Daily Prayer Meetings were held. The promotion of Christian conduct and character among the students was evident.

"I remain, dear Mr. President,

"Your very faithful Servant,

"S. EDWARD BUSBY, Clk., M.A., LL.D.,

"Dean (I.C.)."

"15th June, 1900.

"I have much pleasure in reporting that the conduct and character of the students belonging to the Presbyterian Church, as far as known to me, have been exceedingly good. Owing chiefly to the difficulty of getting an hour at the College suitable for the students, I have had little opportunity of meeting with them during the Session. The

Students' Christian Union continues to flourish, and to exercise a wholesome religious influence in the College.

“ MATTHEW LEITCH,
“ Dean of Residences for Students of the
“ Presbyterian Church.”

“ 2nd June, 1900.

“ DEAR PRESIDENT HAMILTON,—I have to report that the Methodist students, so far as I know, have conducted themselves in every respect with the utmost propriety.

“ It seems to me that the moral tone of the students at the Queen's College is eminently satisfactory.

“ I am,

“ Yours very faithfully,

“ WIL. NICHOLAS,

“ Methodist Dean of Residences.”

“ Adelaide Park, Belfast,

“ May 30, 1900.

“ DEAR SIR,—I have pleasure in saying that I can report well of the students under my care during the past Session of the College.

“ Believe me,

“ Yours faithfully,

“ DOUGLAS WALMSLEY.

“ To the President

“ of Queen's College, Belfast.”

THE ROYAL VISIT.

The announcement last spring of Your Majesty's gracious intention to visit Ireland was nowhere received with more sincere gratification than in this College, of which Your Majesty was the Foundress, and in which there is still gratefully cherished the recollection of the visit with which, in company with the ever-to-be-lamented Prince Consort, Your Majesty was pleased to honour it in 1849. It would have been a proud delight to us to have been permitted to receive Your Majesty within our gates again, but, as that was impossible, a loyal and dutiful Address of welcome was unanimously and enthusiastically voted by the Corporate Body of the College, and we felt that a very high honour was conferred upon us when Your Majesty graciously consented to receive this Address in person. A deputation, consisting of Professor Purser and myself, accordingly proceeded to the Viceregal Lodge, Dublin, on 18th April last, and presented the Address, which appears in the Appendix to this Report.

The several

COLLEGE BUILDINGS

have been efficiently maintained during the year, and several important structural improvements have been carried out. Among these I may mention the construction and adequate fitting of a commodious Mechanical Workshop, over which Mr. John Wylie, B.A., has been appointed Demonstrator, under the supervision of Professors Morton and FitzGerald. In this building a powerful dynamo of the most modern construction and an electric motor have been erected. A lathe, a testing machine, and other appliances and tools have also been placed in it. I expect that this new departure, which has long been desired, will prove of much advantage to students of Natural Philosophy and Engineering and to the College generally.

Another important improvement effected during the past session was the introduction of the electric current into the College buildings from the Corporation mains. Installations, not only for lighting, but for purposes of research and experiment, have been placed in the departments of Natural Philosophy, Chemistry, Physiology, and Pathology, and will, I do not doubt, conduce materially to the successful prosecution of the work which is carried on within their walls.

THE LIBRARY.

During the session the Library Committee, consisting of Professors Park, Cunningham, Dougan, Morton, Symington, Thompson, Byers, the Librarian, and myself, met regularly and exercised a careful supervision over this important department. The number of new volumes placed upon the shelves this year was 654. Most of these were purchased, but for a considerable number we were indebted to the thoughtful kindness of friends. The various donations will be found duly acknowledged in the Appendix to this Report. Among them may be mentioned, as being of special interest and value, the "Calendar of Letter-Books of the City of London" (3 vols.), presented by the Corporation of the City of London; "Galileo Galilei Opere, Edizione Nazionale" (a sumptuous work, which has reached its 9th volume), by the Minister of Public Instruction, Rome; "Scientific Papers of Peter Guthrie Tait" (2 vols.), by the Syndics of the University Press; a Chinese translation of Professor Whitla's well-known "Dictionary of Treatment," presented by Professor Whitla, and many most valuable publications from the Royal Irish Academy, the British Museum, the Institute of Civil Engineers, the Government of India, the Imperial Maritime Customs of China, the Government of Canada, the Norwegian Government, the Cambridge Philosophical Society, the Smithsonian Institution, Washington; the Bureau of Education, Washington; and the United States Government Department of Agriculture. I note also with pleasure the gift by Miss Mary E. Clements, M.A., LL.B., an *alumnus* of the College, whose name already occurs in a previous part of this

Report, of copies of three legal works which are in much request among our students of law, viz.;—"A Historical Sketch of the Equitable Jurisdiction of the Court of Chancery," by D. M. Kerby; "The Law of Fraud and Mistake," by W. W. Kerr; and "The Law of Easements," by J. L. Goddard. The Library is now estimated to contain close on 56,000 volumes, and is, I need hardly say, in large and daily use. The various

MUSEUMS

were assiduously cared for during the year.

The new gallery in the Natural History Museum has been found of great utility, and it is to be hoped that a similar one will shortly be erected in the second room of the building. Several important presentations were received during the year, which will be found acknowledged in their proper place. A considerable number of valuable specimens were acquired by purchase.

In the Medical Museum the onerous but important task of cataloguing and re-arranging has made further progress under the zealous supervision of the Curator, Professor Symington. The Council showed their sense of the value of the work which he is doing by making during the winter a second grant of £50 towards the further equipment of this Museum, which, I am informed, contains one of the most complete collections of this kind to be found in the kingdom. It continues to receive, through the attention of friends, many valuable donations.

The Museum of Hygiene or Sanitary Science continues to make good progress under the unwearied and self-denying care of its Honorary Curator, Dr. Henry O'Neill. Several large cases for the accommodation of the exhibits have been erected, and others are in course of construction. A full list of the donations of which this, the latest-established of our Museums, has been the recipient, with the names of the donors, is placed in the Appendix to this Report, and I take this opportunity of returning my sincere thanks to these generous and thoughtful friends of education. Among the gifts I feel that I must single out for special acknowledgement here the presentation by the Honorary Curator of a fine set of standard Meteorological Instruments, including barograph, terrestrial radiator thermometer, maximum and minimum thermometer, Kew barometer, Mason's hygrometer, Strowson's thermometer screen, and Hearson's patent biological incubator. Valuable assistance in the stocking of the Museum has been rendered by Mr. J. C. Bretland, M.I.C.E., our City Surveyor, and his Assistants, Mr. James Munce, M.I.C.E., Mr. G. A. Boyd and Mr. Smylie, by Messrs. L. L. Macassey & Sons, Engineers to the Belfast Water Commissioners; Messrs. Young & Mackenzie, Mr. James Stelfox, Messrs. Musgrave & Co., Messrs. Richardson, Sons & Owden; Messrs. J. & T. M. Greeves, Messrs. J. S. Brown & Sons, Messrs. Marsh & Co., and Messrs. G. W. Kyle & Co., with many others. The "Two Friends" from whom I have already received two unsolicited

donations of £20 towards the establishment of this Museum, have, during the Session, handed me a further gift of £20, making £60 in all. I desire to thank them for their kindly generosity. Such gifts are most encouraging and helpful to our work.

THE STUDENTS' UNION

has had, I am glad to say, another prosperous Session, and not only continues, I think, to fulfil the hopes of its founders, but to advance year by year in usefulness and academic reputation. Its reading room, debating hall, dining room, and recreation rooms are largely frequented during term time by graduates and undergraduates. A library has now been established, and arrangements for increasing it to a substantial extent are in progress. I have received and perused with interest the annual printed report and statement of accounts issued by the Committee, and note with pleasure the satisfactory increase in the membership and the prosperous condition of the finances. The affairs of the Union seem to be managed with commendable spirit and business-like correctness. Open as membership in it is at a very small fee to all *alumni* of the College, I think that every gentleman in attendance, and as many past students as possible, ought to seek to have their names upon its books. Mr. John M'Crea, B.A., was President during the Session now ended, and Dr. O. M. Praeger has been elected his successor. The several other

COLLEGE SOCIETIES,

which the students have formed amongst themselves for improvement and recreation, held most of their meetings during the Session in the rooms of the Union. At the opening meeting, in the M'Mordie Hall, of the oldest of these, the Literary and Scientific Society, which has now completed the fifty-first year of its honourable and useful history, the new President, Mr. S. C. Porter, B.A., delivered his inaugural address, and during the winter the usual number of public and private meetings was held. The Medical Students' Association had also a busy Session under the presidency of Mr. David M'Mordie, B.A. Various topics of professional interest were discussed at its meetings.

Of the continued prosperity of another Society, composed not of present but past students of the College, I learn with unmixed pleasure. I refer to the Association of Old Belfastmen, London. Its President for the year just ended was one of our best-known *alumni*, the Rev. J. Thoburn M'Gaw, M.A., D.D., whose name stands in honourable prominence on our College Honour Lists, and I understand that its annual dinner, held in the Hotel Cecil a few weeks ago, was the most largely-attended function which it has yet had. Sir William MacCormac, Bart., M.D., President of the Royal College of Surgeons, and one of the founders and former Presidents of the Association, was the special guest of the evening, on his return from the seat of war in South Africa, where he has rendered such eminent service to the sick and wounded.

I have thus endeavoured to furnish a concise *resumé* of our history during the past academic year. The College has prospered and is prospering. It has done a great work for the North of Ireland, and will, I have no doubt, continue to do it. But I wish I could seriously arouse public attention to certain defects under which it labours, and which greatly impair its usefulness. Some of its wants, under which it has suffered for years, have, I am glad to say, been supplied within

THE LAST DECADE.

and for this relief I am devoutly thankful. A new building, devoted to the study and teaching of Chemistry, has been erected, and has been a great boon, notwithstanding the fact that it is still uncompleted. Physiological, Pathological, and Bacteriological laboratories have been established. A Union for the use of present and former students has been provided, is housed in an admirable and commodious building, and enjoys a substantial endowment. A Museum of Hygiene has been founded, and, as a previous part of this Report shows, is rapidly accumulating within its walls a mass of valuable material for the illustration and teaching of a branch of science which is vitally related to the public health. And now a Mechanical Workshop has been opened. In addition to these new buildings, many important alterations and improvements have been effected in the older portions of the College, which have materially enhanced their usefulness and beauty. Nor have our advances been solely in the shape of bricks and mortar. A new Chair has been founded by private beneficence, the first to be so established in the College; several Lectureships have been instituted, and a number of new Scholarships provided for the encouragement of study and research. The classes of the College, and all Scholarships and prizes, have been thrown open to women. In the Medical School the number of departments has been exactly doubled within the last ten years. In all this there is much to be thankful for, and much to inspire us with hope that the other needs of which we complain will somehow be supplied. But certain of these are so clamant and pressing that, in the interests of sound learning, they ought at once to be looked to; and even though my pleading for them should seem like a voice crying in the wilderness, I feel that I should fail in my duty did I not speak of them with all the earnestness in my power. A new

PHYSICAL LABORATORY

is one of our most urgent *desiderata*. It is a wrong and very shortsighted policy, in these days of the advance of practical science, to leave the department of Natural Philosophy without this most necessary adjunct to its work. A Biological Laboratory has long been asked for, and hitherto in vain. Yet without it the Department of Natural History is sadly incomplete. And the building partly erected for the Department of Chemistry

ought surely to be completed. In mentioning these three wants I am merely selecting out of many those which are clearly the most pressing as regards buildings, and the fact that all of them, owing to the nature of the plans prepared, (for we know exactly what should be done), could be supplied at a singularly small monetary expenditure, makes it the more deplorable that we are left without them. It seems a pity that, only for the want of a very little money, a College which has done, and is doing, such noble work for Belfast and the whole country should be left without necessary appliances and equipments, the want of which hampers its efforts, and the supply of which would undoubtedly give it a distinct forward impetus. One reads with a longing heart such an announcement as appeared in the newspapers the other day—that the University of Chicago received more than £800,000 in donations during last month, and that the total gifts, which it has got, now amount to the sum of £2,225,000, while in our own country the people of Birmingham have, under the leadership of Mr. Chamberlain, shown their sense of the importance of providing their city with a university by subscribing several hundreds of thousands of pounds for the purpose, and have, in the face of immense difficulties, attained the end which they desired.

I have placed the usual statistical and other Tables in the Appendix to this Report, and beg to subscribe myself

Your Majesty's

Most dutiful servant,

THOMAS HAMILTON,

PRESIDENT.

July, 1900.

APPENDIX.

ADDRESS presented to HER MAJESTY from QUEEN'S COLLEGE,
BELFAST, 18th April, 1900.

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

MAY IT PLEASE YOUR MAJESTY.—We, the President and Professors of Queen's College, Belfast, beg most respectfully to tender to Your Majesty a hearty welcome to Ireland.

All classes of Your Majesty's loyal subjects heard with unfeigned delight of Your Majesty's spontaneous decision to honour the country with your presence, and we sincerely trust that your stay amongst us may be fraught with the same unalloyed happiness which it will undoubtedly afford to your loving people.

To the members of this College Your Majesty's visit gives peculiar satisfaction, and recalls many grateful memories. We are proud that we can look to Your Majesty as our Founder, and the day is often recalled among us when, in company with the ever-to-be-remembered Prince Consort, His Royal Highness Prince Albert, Your Majesty honoured the College with a visit. Since that auspicious date we have striven with zeal, and we hope with no little success, to carry out the high trust committed to us of affording to all classes of Your Majesty's subjects, without distinction of creed or class, the benefits of a liberal education.

Nowhere in Your Majesty's wide dominions is there to be found truer or more fervent loyalty to Your Majesty's person and Throne than in the North of Ireland, and nowhere in Ulster is this loyalty more im pregnably intrenched than within the walls of this College, from which ascends to-day the sincere and heartfelt prayer that Heaven may graciously vouchsafe to Your Majesty all happiness and weal, not only during your residence in Ireland, but to your life's end.

Signed at Queen's College, Belfast, this twenty-seventh day of March, 1900, in the name and on behalf of the College.

THOMAS HAMILTON, *President.*

JOHN PURSER, *Registrar.*

VISITORS.

- The Most Honourable the Marquess of Dufferin and Ava, K.P., G.C.S.
 The Most Honourable the Marquess of Londonderry, K.G.
 The Right Honourable A. M. Porter, Master of the Rolls in Ireland.
 His Honour Judge Shaw, Q.C.
 The Right Rev. Bishop Welland, D.D.
 The Right Honourable Thomas Sinclair, J.P., D.L.
 The Right Honourable the Chief Secretary for Ireland, for the time being.
 The Moderator of the General Assembly of the Presbyterian Church in Ireland, for the time being.
 The President of the Royal College of Physicians, Ireland, for the time being.
 The President of the Royal College of Surgeons, Ireland, for the time being.
 The President of the Association of Non-Subscribing Presbyterians of Ireland for the time being.
-

PRESIDENT, PROFESSORS, &c., AND DEANS OF RESIDENCES.

President.—THE REV. THOMAS HAMILTON, M.A., D.D., LL.D.

{ Practical Pharmacy, Summer, 1899,	31	44

* In addition, forty-nine Lectures were given by the Senior Scholar.

† In addition, sixty-one Lectures were given by the Senior Scholar.

‡ Daily, except Saturdays, during the Session.

§ Days on which the Laboratory was open under the supervision of the Professors.

¶ Daily during the Session from 9 to 5.

** Laboratory open daily during the Second Term.

*** In addition instruction given in Office Work on 96 days.

TABLE VII.
COLLEGE SCHOLARS AND PRIZEMEN.
SESSION 1899-1900.

SENIOR SCHOLARS.

GREEK AND LATIN LANGUAGES, AND ANCIENT HISTORY.

Groer, Robert Francis, B.A. | Clark, Andrew, B.A. — A Prize.

MATHEMATICS.

Smyth, Samuel Andrew, B.A. | Stewart, Samuel Edgar, B.A. — A Prize.

NATURAL PHILOSOPHY.

Vinycomb, Thomas Bernard, B.A.

LOGIC, METAPHYSICS, AND POLITICAL ECONOMY.

Hamilton, Samuel John, B.A.

NATURAL HISTORY.

Black, Albert Lytle, B.A. | Phillips Walter, B.A. — A Prize.

JUNIOR SCHOLARS.

FACULTY OF ARTS.

Third Year.

LITERARY DIVISION.

Knox, William George.		Archer, John.
Ferguson, James.		Rutherford, John Finlay.
McCallough, Reid.		Morton, John George.

SCIENCE DIVISION.

McDonnell, John.		Park, John Edgar.
Miller, George Crockett.		

Second Year.

LITERARY DIVISION.

McKee, Phineas.		Leighton, Robert Henry.
Smiley, Sara Robena Beatty.		Hagan, Edward James.
Madill, James Millar Moorehead.		

SCIENCE DIVISION.

Hawthorne, William.		Quinn, James.
Houston, Robert Martin.		

First Year.

LITERARY DIVISION.

Johnston John.		Shillington, Margaret.
Arnold, John Corry.		Miskelly, Edith.
Miller, John.		

SCIENCE DIVISION.

Leatham, George.		Moore, John Lowry.
Jamison, Robert.		Watson, Herbert.
Johnston, Thomas Arnold.		

FACULTY OF MEDICINE.

Fifth Year.

<i>Medicine and Pathology.</i>	<i>Surgery and Midwifery.</i>
Reford, John Hope, B.A.	
Hereu, Archibald George, B.A.— A Prize.	Steen, Hugh Barkley

Fourth Year.

Armstrong, John.	M'Mordie, David, B.A.
------------------	-----------------------

Third Year.

Johnston, Henry Mulren.	Phillips, Walter, B.A.
-------------------------	------------------------

Second Year.

Lyle, Thomas.	M'Pherson, Joseph Clarke.

TABLE IX.—STUDENTS OF THE COLLEGE WHO HAVE GAINED JUNIOR FELLOWSHIPS, STUDENTSHIPS, SCHOLARSHIPS, EXHIBITIONS, OR PRIZES IN THE ROYAL UNIVERSITY OF IRELAND, SINCE ITS ESTABLISHMENT.

The names of those who were disqualified by University standing, or age, are printed in *Italics*.

JUNIOR FELLOWSHIPS.

- Morton, William B., M.A., in Mathematics, 1894.
 Woodburn, George, M.A., in Mental and Moral Science, 1894.
 McElderry, Robert K., M.A., in Classics, 1896.
 Donnan, Frederick G., M.A., in Chemistry, with Experimental Physics, 1897.
 Houston, William A., M.A., in Mathematics, 1898.

UNIVERSITY STUDENTSHIPS.

- Tate, James, in Mathematics, 1883, £100 for five years.
 McQuitty, William B., in Experimental Science, 1884, £100 for five years.
 FitzHenry, William A., in Mental and Moral Science, 1885, £100 for five years.
 Boyd, Andrew, in Civil and Constitutional History, Jurisprudence, and Political Philosophy, 1896, £100 for five years.
 Orr, William McFadden, in Mathematics, 1887, £100 for five years.
 Rowan, William H., in Classics, 1889, £100 for three years.
 Woodburn, George, in Mental and Moral Science, 1889, £100 for three years.
 Montgomery, Robert, in Classics, 1891, £100 for three years.
 Haslett, Thomas, in Mental and Moral Science, 1891, £100 for three years.
 Morton, William B., in Mathematical Science, 1892, £100 for three years.
 Moore, Benjamin, in Experimental Science, 1892, £100 for three years.
 McElderry, Robert K., in Classics, 1893, £100 for three years.
 Cochrane, John, in History and Political Science, 1893, £100 for three years.
 Donnan, Frederick G., in Experimental Science, 1894, £100 for three years.
 Leatham, John G., in Mathematical Science, 1895, £100 for three years.
 Magill, Robert, in Mental and Moral Science, 1896, £100 for three years.
 Houston, William A., in Mathematical Science, 1896, £100 for three years.
 Gillespie, John R., in Experimental Science, 1896, £100 for three years.
 Henry, Robert M., in Classics, 1898, £100 for three years.

UNIVERSITY MEDICAL STUDENTSHIP.

- Johnstone, Robert J., 1896, £200 for two years.
 Houston, Thomas, 1898, £200 for two years.

UNIVERSITY SCHOLARSHIPS.

- Orr, William McF., in Mathematics, 1883, £50 for three years.
 Johnson, William S., in Classics, 1884, £50 for three years.
 Alexander, John J., in Mathematics, 1884, £50 for three years.
 Everett, Alice, in Mathematics, 1885, £50 for three years.
 Porter, William H., in Classics, 1886, £50 for three years.
 Haslett, William W., in Classics, 1886, £50 for three years.
 Williamson, William H., in Mathematics, 1886, £50 for three years.
 Major, Harold W., in Mathematics, 1886, £50 for three years.
 Stoupe, Margaret, Second Class in Classics, 1898, £20 for three years.
 McDonnell John, First Class in Mathematics, £40 for three years.

DR. HENRY HUTCHINSON STEWART SCHOLARSHIPS.

Wilson, Mary, in Arts, 1886.
 Baxter, James S., in Arts, 1890.
 Woods, William J., in Medicine, 1890.
 Chapman, Agnes H., in Arts, 1892.

AT M.A. EXAMINATION.

Louden, James, a Gold Medal, 1884.
 Boyd, Andrew, a Special Prize, 1885, £20.
 FitzHenry, William A., a Gold Medal, 1885.
 McQuitty, William B., a Special Prize, 1885, £20
 Hunter, James, a Special Prize, 1886, £50.
 Orr, William McF., a Gold Medal, 1887.
 Campbell, John E., a Special Prize, 1887, £50.
 Woodburn, George, a Gold Medal, 1889.
 Witherow, James M., a Special Prize, 1891, £50.
 Haslett, William W., Special Prize, 1892, £50.
 Heron, Richard C., Special Prize, 1893, £40.

AT B.A. EXAMINATION.

Harrison, Thomas, First Class Exhibition, 1882, —
Johnston, John, " " " £50.
Jones, Robert M., " " " £50.
McVicker, John W., " " " £50.
Campbell, John E., " " 1883, £50
Darbishire, Herbert D., " " £50.
Hunter, James, " " £50.
Louden, James, " " £50.
Campbell, John, Second Class " " £25.
Chambers, Joseph, " " —
Boyd, Andrew, First Class " 1884, £50.
Boyd, Robert W., " " —
FitzHenry, William A., " " £50.
McQuitty, William B., " " £50.
Glass, Thomas, Second Class " " —
Henderson, Robert, " " £25.
Killen, William M., " " £25.
McAnlis, Thomas, " " £25.
Russell, William A., " " £25.
Cummings, David, First Class " 1885, —
Orr, William McF., " " £50.
Orr, William McF., Special Prize, " £50
Rea, James C., First Class Exhibition, " —
Russell, William, " " £50.
Stewart, Thomas, " " £50.
Vance, John, " " £50.
Cronie, Edward S., Second Class " £25.
Dill, Alexander H., " " —
Donald, Robert J. F., " " —
Fitzsimons, James H., " " £25.
McNeill, Robert, " " £25.
Priestley, James, " " £25.
Alexander, John J., First Class " 1886, £50.
Dunn, William, " " £50.
Johnson, William S., " " £50.
Wheeler, George H., " " £50.
Jamison, Daniel, Second Class " £25.
Montgomery, Robert, " " —
Rowan, William H., First Class " 1887, £50.

TABLE X.—List of Sundry Students of the COLLEGE who have, since 1st January, 1881, obtained distinctions in Universities other than the Royal University of IRELAND.

The date immediately following each name is that of the last Session in which the name of the Student appeared on the Roll of the College.

ECLES, JOHN, M.A. R.U.I., M.A. Cantab. (1876-77).

1881. Wranglership, 14th place in the Mathematical Tripos, University of Cambridge.

NEWSOME, JAMES C., M.A. R.U.I., B.A. T.C.D. (1876-77).

1884. Scholarship (Classical), Trinity College, Dublin.

1887. Classical Studentship, Trinity College, Dublin.

CHARLES, ROBERT H., M.A. R.U.I., M.A. T.C.D. (1877-78).

1881. Senior Moderatorship in Classics, and Junior Moderatorship in Ethics and Logics, University of Dublin.

CORRY, THOMAS H., M.A. R.U.I., B.A. Cantab. (1877-78).

1881. Scholarship, Gonville and Caius College, Cambridge.

JOHNSTON, WILLIAM J., M.A. R.U.I., B.A. T.C.D. (1877-78).

1883. Senior Moderatorship in Mathematics and Physics, University of Dublin.

WRIGHT, ALMROTH E., B.A., M.D. T.C.D. (1877-78).

1882. Senior Moderatorship in Modern Literature, University of Dublin.

KNOWLES, THOMAS T., M.A. R.U.I., M.A. Cantab. (1878-79).

1882. Wranglership, 19th place in Mathematical Tripos, University of Cambridge.

SEAYEE, RICHARD W., M.A. R.U.I., B.A. T.C.D. (1879-80).

1881. Scholarship (Classical), University of Dublin.

1883. Senior Moderatorship in Ethics and Logics, and Junior Moderatorship in Classics, University of Dublin.

REID, JAMES S., B.A. R.U.I. (1880-81).

1882. Foundation Scholarship, Lincoln College, Oxford.

M'FARLAND, ROBERT A. H., M.A. R.U.I., B.A. Cantab. (1880-81).

1882. Scholarship, Gonville and Caius College, Cambridge.

1883. Wranglership, 9th place in Mathematical Tripos, University of Cambridge.

" Exhibition, Gonville and Caius College, Cambridge.

SEMPLE, ROBERT H., M.A. R.U.I., B.A. Cantab. (1880-81).

1881. Sizarship, St. John's College, Cambridge.

" Exhibition, Goldsmiths' Company, University of Cambridge.

" Exhibition at First B.A. Examination in Mathematics, University of London.

ANDERSON, WILLIAM C. F., M.A. R.U.I., B.A. Durham (1881-82).

- 1882. Foundation Scholarship, University of Durham.
- " Newby Scholarship, University of Durham.
- 1883. First Year Scholarship, University of Durham.
- " University Classical Scholarship, University of Durham.
- 1884. Gabbet Prize for Essay on Moral Philosophy, University of Durham.
- Adam de Brome Exhibition, Oriel College, Oxford.
- 1885. Second Class in Classical Moderations, University of Oxford.
- 1887. Second Class in Final Classical School, University of Oxford.

LARMOR, ALEXANDER, M.A. R.U.I., M.A. Cantab. (1881-82).

- 1881. First Entrance Scholarship in Mathematics, Clare College, Cambridge.
- 1882. Foundation Scholarship, Clare College, Cambridge.
- 1884. Wranglership, 11th place in Mathematical Tripos, University of Cambridge.
- 1885. Berkeley Fellowship, Owens College, Manchester.
- Fellowship, Clare College, Cambridge.

CAMPBELL, ALBERT, B.A. Cantab. (1882-83).

- 1884. Foundation Scholarship, Corpus Christi College, Cambridge.
- 1885. First Senior Optime, University of Cambridge.

M'VICKER, JOHN W., B.A. R.U.I. (1882-83).

- 1883. Exhibition in Mathematics, Worcester College, Oxford.

STEWART, DAVID A., M.A. R.U.I., M.A. Cantab. (1882-83).

- 1881. First Mathematical Scholarship, Caius College, Cambridge.
- 1883. Foundation Scholarship, Caius College, Cambridge.
- " Mathematical Scholarship, University of London.
- " Goldsmith Exhibition, University of Cambridge.

RUSSELL, WILLIAM A., B.A. R.U.I., B.A. Cantab. (1883-84).

- 1883. Exhibition, St. John's College, Cambridge.
- " Sizarship, St. John's College, Cambridge.
- 1885. Goldsmith Exhibition, University of Cambridge.
- 1886. Honours in Classical Tripos, University of Cambridge.

CAMPBELL, JOHN E., M.A. R.U.I., M.A. Oxon. (1883-84).

- 1883. Mathematical Scholarship, Hertford College, Oxford.
- 1885. Junior University Mathematical Scholarship, and First Class in Mathematical Moderations, University of Oxford.
- 1887. First Class in Final Mathematical School, University of Oxford.
- 1887. Fellowship, Hertford College, Oxford.
- 1888. Senior Mathematical Scholarship, University of Oxford.

DARBISHIRE, HERBERT D., B.A. R.U.I., M.A. Cantab. (1883-84).

- 1883. Sizarship, St. John's College, Cambridge.
- 1885. Honours in Classical Tripos, University of Cambridge.
- 1888. Foundation Scholarship, St. John's College, Cambridge.
- 1889. M'Mahon Law Scholarship, St. John's College, Cambridge.
- 1892. Fellowship, St. John's College, Cambridge.

BARNETT, RICHARD W., B.CH., M.A., B.C.L. Oxon. (1881-82).

- 1885. Third Class in Classical Moderations, University of Oxford.
- 1887. Second Class in Jurisprudence, University of Oxford.

- ORE, WILLIAM M.F., M.A. R.U.I., M.A. Cantab. (1884-85).
 1884. Foundation Scholarship, St. John's College, Cambridge.
 1886. Exhibition in St. John's College, Cambridge.
 1888. Senior Wrangler in Mathematical Tripos, University of Cambridge.
 1889. First Class in Mathematical Tripos, Part II.
- TATE, JAMES, M.A. R.U.I., B.A. Cantab. (1883-84).
 1886. Sixteenth Wrangler, University of Cambridge.
 1886. Foundation Scholarship, St. John's College, Cambridge.
- STEED, BENJAMIN H., M.D. T.C.D. (1885-86).
 1886. Science Scholarship, Trinity College, Dublin.
 1887. Mathematical Studentship, Trinity College, Dublin.
 1889. Bishop Law Mathematical Premium, Trinity College, Dublin.
- PORTER, WILLIAM H., B.A. Oxford (1885-86).
 1887. Scholarship, Lincoln College, Oxford.
 1888. Goldsmith Exhibition, University of Oxford.
 1889. Second Class in Classical Moderations, University of Oxford.
 1891. Second Class in Final Classical School, University of Oxford.
 1893. Chancellor's Prize for English Prose Essay, University of Oxford.
- GREGG, JAMES, M.A. R.U.I., M.A. T.C.D. (1880-81).
 1888. First Science Scholarship, Trinity College, Dublin.
- LUKE, EDWARD H., B.A. R.U.I. (1886-87).
 1888. Classical Scholarship, Trinity College, Dublin.
- MAJOR, HAROLD W., B.A. R.U.I., B.A. Cantab. (1887-88).
 1888. First Entrance Scholarship in Mathematics, Queen's College, Cambridge.
 1889. Foundation Scholarship in Mathematics, Queen's College, Cambridge.
 1891. Second Class Honours in Mathematical Tripos, University of Cambridge.
- M'BRIDE, ERNEST W., M.A. Cantab, B.Sc. Lond. (1887-88).
 1888. Entrance Exhibition, St. John's College, Cambridge.
 1889. Exhibition in Natural Science, St. John's College, Cambridge.
 1890. B.Sc. with First Class Honours and Exhibition in Natural Science, University of London.
 „ First Class Honours at Natural Science Tripos, Part I., University of Cambridge.
 „ Foundation Scholarship, St. John's College, Cambridge.
 1891. First Class Honours in Natural Science Tripos, Part II. University of Cambridge.
 „ Hughes Prize, St. John's College, Cambridge.
 1892. Appointed Demonstrator in Natural Science at University of Cambridge.
 1893. Fellowship, St. John's College, Cambridge.
 „ The Walsingham Medal for original work in Natural Science, University of Cambridge.
 1899. D.Sc., University of London.
- HASLET, WILLIAM W., B.A. R.U.I., M.A. Cantab. (1888-89).
 1888. Entrance Exhibition, St. John's College, Cambridge.
 1890. Foundation Scholarship, St. John's College, Cambridge.
 1891. First Class Honours in Classical Tripos, Part I. University of Cambridge.
 1892. First Class Honours in Classical Tripos, Part II., University of Cambridge.

MONTGOMERY, ROBERT, M.A. R.U.I., B.A. Cantab. (1887-88).

1889. Foundation Sizarship, and First Class Honours in Classics, Trinity College, Cambridge.

1890. Foundation Scholarship, Trinity College, Cambridge.

1891. First Class Honours in Classical Tripos, University of Cambridge.

ALEXANDER, JOHN J., M.A. R.U.I., B.A. Cantab. (1887-88).

1887. Entrance Exhibition, St. John's College, Cambridge.

1889. Foundation Scholarship, St. John's College, Cambridge.

1890. Wranglership, Seventh place in Mathematical Tripos, University of Cambridge.

LEE, JAMES, B.A. R.U.I. (1888-89).

1889. Entrance Exhibition, St. John's College, Cambridge.

MORTON, WILLIAM B., M.A. R.U.I., M.A. Cantab. (1888-89).

1889. Entrance Exhibition, St. John's College, Cambridge.

1891. Foundation Scholarship, St. John's College, Cambridge.

1892. Wranglership, Eighth place in Mathematical Tripos, University of Cambridge.

COTTER, WILLIAM E. P., B.A. R.U.I., M.A. T.C.D. (1888-89).

1889. Classical Scholarship, Trinity College, Dublin.

HERON, RICHARD C., M.A. R.U.I., B.A. Cantab. (1889-90).

1889. Exhibition, St. John's College, Cambridge.

1891. Goldsmith Exhibition, University of Cambridge.

" Foundation Sizarship, St. John's College, Cambridge.

1892. Foundation Scholarship, St. John's College, Cambridge.

1893. Wranglership, Twentieth place in Mathematical Tripos, University of Cambridge.

STEWART, JAMES A., B.A. R.U.I. (1888-89).

1889. Exhibition, St. John's College, Cambridge.

1891. Foundation Scholarship, St. John's College, Cambridge.

KNIGHTLEY, FREDERICK R., B.A. R.U.I., B.A. Cantab. (1886-7).

1890. Third Class Honours in Historical Tripos, University of Cambridge.

LEATHAM, JOHN G., M.A. R.U.I., M.A. Cantab. (1890-91).

1891. Entrance Exhibition, St. John's College, Cambridge.

1894. Hughes Prize, St. John's College, Cambridge.

" Wranglership, Fourth place in Mathematical Tripos, University of Cambridge.

1895. First Division of First Class in Mathematical Tripos, Part II, University of Cambridge.

" Sir Isaac Newton Studentship, University of Cambridge.

1896. Fellowship, St. John's College, Cambridge.

1899. D.Sc. and Granville Scholarship, University of London.

M'ELDERRY, ROBERT K., M.A. R.U.I., M.A. Cantab. (1890-91).

1891. Entrance Exhibition, St. John's College, Cambridge.

1893. Hughes Prize, St. John's College, Cambridge.

1894. First Class, 2nd Division, in Classical Tripos, Part I, University of Cambridge.

1895. First Class in Classical Tripos, Part II, University of Cambridge, with Star for distinguished answering in History Section.

1897. Fellowship, St. John's College, Cambridge.

- McVICKER, CHARLES EDWARD, B.A. Cantab., M.A. T.C.D. (1881-82).
 1892. Wranglership, Seventeenth place in Mathematical Tripos, University of Cambridge.
- BOAS, WALTER P., B.A. R.U.I. (1891-92).
 1893. Entrance Exhibition, St. John's College, Cambridge.
 1894. Exhibition, St. John's College, Cambridge.
- HOUSTON, WILLIAM A., M.A. R.U.I., B.A. Cantab. (1891-92).
 1892. Entrance Exhibition, St. John's College, Cambridge.
 1894. Foundation Scholarship, St. John's College, Cambridge.
 1896. Wranglership, Fifth place in Mathematical Tripos, University of Cambridge.
 1897. First Class, First Division, in Mathematical Tripos, Part II, University of Cambridge.
 1898. Second Smith's Prize.
 1899. Fellowship, St. John's College, Cambridge.
- LOCKE, GEORGE T., B.A. R.U.I., B.A. Cantab. (1893-94).
 1894. Entrance Exhibition, St. John's College, Cambridge.
 Foundation Scholarship, St. John's College, Cambridge.
 1897. Honours in Mathematical Tripos, Part I, University of Cambridge.
- ROBE, ALFRED A., B.A. R.U.I., B.A. Cantab. (1893-94).
 1894. Entrance Exhibition, St. John's College, Cambridge.
 1897. Honours in Mathematical Tripos, Part I, University of Cambridge.
- CLEMENTS, WILLIAM T., B.A. Cantab. (1893-94).
 1894. Entrance Exhibition, St. John's College, Cambridge.
 1897. Honours in Mathematical Tripos, Part I, University of Cambridge.
- BAXTER, JAMES SINCLAIR, B.A. R.U.I., LL.B. London (1893-94).
 1894. LL.B. with First Class Honours, London University
- MEGAW, ROBERT D., M.A., LL.B. R.U.I. (1892-93).
 1894. Prize of £50 for distinguished answering at the Examination for the Reid Professorship, Trinity College, Dublin.
- RICE, JAMES, B.A. R.U.I. (1895-96).
 1894. Entrance Exhibition, St. John's College, Cambridge.
- REID, DAVID D., B.A. OXON. (1892-93).
 Scholarship in History, New College, Oxford.
 1896. First Class in Modern History Class List, University of Oxford.
 1897. Second Class in School of Jurisprudence, University of Oxford.
- ARMSTRONG, FREDERICK W., B.A. R.U.I. (1896-97).
 1897. Exhibition in Classics of £50 at Entrance Scholarship Examination, St. John's College, Cambridge.
- EVERETT, ALEXANDER FRASER (1896-97).
 1899. Exhibition in History, New College, Oxford, £50 per annum during residence.
- STEWART-WALLACE, JOHN S. (1894-95).
 1899. First Class, Final Honour School of Jurisprudence, University of Oxford.

TABLE XI.—BENEFACTORS of QUEEN'S COLLEGE, BELFAST,
since its Foundation in 1845.

- Anno.
1847. Presented by Charles Davis, Esq., a large oil painting of the Assassination of Peter the Martyr, by Atkins, being a copy of the original painting by Titian.
- Presented by Professor Craik, a portrait of Confucius.
1851. The Governors of the Armagh Observatory, with the sanction of Her Majesty, transferred to the College the Transit Instrument and Astronomical Clock which were formerly in the Observatory at Kew.
- The Lords of the Admiralty, on the recommendation of the Astronomer Royal of England, acceded to an application from Professor Wilson for transferring to the College a Mural Circle by Jones, which had been in use at the Cape of Good Hope.
- For the reception of these instruments an Observatory was erected on the College grounds, the expense having been defrayed by subscription.
1854. Presented by W. P. Wilson, Esq., M.A., former Professor of Mathematics in the College, a Bust of Sir Isaac Newton.
1855. Presented by Robert Lyun, Esq., London, an oil portrait of James the First of England when a child, an oil portrait of Joannes Carolus, and an oil portrait of John Milton.
1860. An oil portrait of Hugh Carlisle, M.D., former Professor of Anatomy and Physiology in the College; presented by the subscribers.
1864. Given by R. M. Wilson, Esq., an Exhibition of Twenty Pounds to be conferred annually upon one or more of the most deserving unsuccessful candidates for a Scholarship of the First Year.
- This Exhibition was awarded for eleven years.
1864. Given by the Royal Academical Institution, Belfast, two Exhibitions of Five Pounds each, to be conferred annually upon students from that Institution who obtain the highest places in the Literary and Science Divisions, at the Examination for Scholarships of the First Year.
1866. Given by John Charters, Esq., an Exhibition, value Fifteen Pounds, and two Exhibitions, value Ten Pounds each, in the Literary Division of the Faculty of Arts; also one Exhibition, value Fifteen Pounds, and two, value Ten Pounds each, in the Science Division of the Faculty of Arts, to be called the "Charters' Exhibitions," and to be annually awarded during ten years, at the Examinations for the Literary and Scientific Scholarships of the first year, to students who, during at least one year previous to their entrance into college, were in continuous attendance at the Royal Academical Institution, and who attain the standard of excellence required at the Junior Scholarship Examinations. Also, an Exhibition, value Fifty Pounds, tenable for one year, to be called the "Charters' Medical Exhibition," to be annually awarded during ten years, in connexion with the Belfast School of Medicine, by the Trustees of the "Charters' Educational Fund."
- An oil portrait of William Burden, M.D., former Professor of Midwifery in the College; presented by the subscribers.
1868. Bequeathed by Robert Sullivan, Esq., LL.D., Barrister-at-Law, the sum of Four Thousand Pounds for the endowment of Three Scholarships in Queen's College, Belfast, to be called the Sullivan Scholarships, two of them to be restricted to candidates who shall have acted as Teachers or Assistant Teachers in Irish National Schools for at least two years, and one of them to candidates who shall have been educated in the Royal Academical Institution, Belfast, for at least three years.
- These Scholarships are of the annual value of Forty Pounds each and are tenable for three years.

ANNO.

1869. Given by William Coates, Esq., a prize, value Thirty Pounds, to be called "The Coates Prize," and to be awarded in the Department of Engineering.

This prize was awarded for four years.

1869. A Bust of the Rev. P. Shuldbam Henry, D.D., late President of the College, presented by the Professors and other subscribers.

1871. An oil portrait of George L. Craik, LL.D., former Professor of History and English Literature in the College, and also a photograph group of some of the Professors; presented by Messrs. Marcus Ward & Co.

1871. Bequeathed by John Porter, Esq., the sum of Three Thousand One Hundred and Ten Pounds Eight Shillings and Four Pence for the endowment of Two Scholarships in Queen's College, Belfast, to be called "The Porter Scholarships." These scholarships are of the annual value of Fifty Pounds each, and are tenable for two years.

1873. A deed was executed by William Dunville, Esq., establishing the "Sorella Trust." This deed, which also provides funds for other educational purposes not connected with the College, endows two Studentships in Queen's College, Belfast, to be called "The Dunville Studentships." They are awarded, in alternate years, one, for the encouragement of the study of Mathematical and Physical Science, the other, for the encouragement of the study of Natural Science. Each person obtaining a Studentship receives £45 for the first year, and £100 for the second year.

1873. Given by the Widow and Children of the late John Robinson M'Cleau, Esq., Civil Engineer, London, through the hands of the Rev. P. S. Henry, D.D., President, the sum of Five Hundred Pounds, to be expended in the purchase of Scientific works for the Library of Queen's College, Belfast.

1874. Given by the Methodist College, Belfast, one Exhibition, value Ten Pounds, to be awarded annually to the highest answerer among students from the Methodist College who obtain Literary Scholarships of the first year in Queen's College, Belfast; and another Exhibition, also value Ten Pounds, to the highest answerer among students from the Methodist College, who obtain Science Scholarships of the First Year in the same College.

1876. Given by the Reverend Arthur Hercules Pakenham, for the endowment of two Scholarships in Queen's College, Belfast, one to be called the "Sir Hercules Pakenham Scholarship," and the other the "Emily Lady Pakenham Scholarship," the sum of One Thousand Pounds, invested in five bonds of £100 each of the Moscow Jaroslaw Railway Company, and five bonds of £100 each of the Charkoff Azov Railway Company.

1877. Given by an anonymous donor, Ten Pounds, to provide for an Entrance Prize of Five Pounds, to be awarded for proficiency in French.

This prize was awarded for two years.

1878. An oil portrait of Alexander Gordon, M.D., former Professor of Surgery in the College; presented by the subscribers.

1880. The subscribers to a testimonial given to Dr. MacDonall on his retirement from the Professorship of Greek, presented to the College, in addition to a portrait of Dr. MacDonall now placed in the Examination Hall, a collection of Classical and Oriental Works of the value of £275, selected from the library of Dr. MacDonall, to form the nucleus of a department of the Library to be called "The MacDonall Library."

Anno.

1881. The sum of One Thousand Seven Hundred and Ninety-two Pounds Seven Shillings was raised by public subscription, for the establishment of a Scholarship to commemorate the distinguished services, rendered to this College and to Chemical Science, by Dr. Thomas Andrews, F.R.S., the late Vice-President.

At the same time a full-length Oil Portrait of Dr. Andrews was placed in the Examination Hall.

1882. The sum of Eight Hundred and Seventy-five Pounds Six Shillings, in New Three per Cent. Government Stock, being a portion of the bequest of the late Lord Blayney, was transferred to this College by the Queen's University.
1882. A Medal, to be awarded annually, was founded with a portion of the residue of the Peel Fund of the late Queen's University.
1882. An Oil Portrait of William Nesbitt, M.A., former Professor of Latin in the College; presented by the Subscribers.
1889. Bequeathed by John McKane, Esq., LL.D., Barrister-at-Law, former Professor of English Law in the College, a Gold Medal to be awarded annually for answering in Jurisprudence and Political Economy.
1889. An Oil Portrait of the Rev. J. Leslie Porter, D.D., LL.D., late President of the College; presented by the President and Professors.
1890. An Oil Portrait of John Purser, LL.D., Professor of Mathematics in the College; presented by his former students.
1891. Given by Her Majesty's Commissioners of the Exhibition of 1851 the nomination to a Scholarship of the value of £150 per annum, tenable for two, or, under special conditions, for three years, and limited to those branches of Science (such as Physics, Mechanics, and Chemistry), the extension of which is specially important for our national industries.
1893. Given by Her Majesty's Commissioners of the Exhibition of 1851 the nomination to a Scholarship of the value of £150 per annum, tenable for two, or, under special conditions, for three years, as above.
1893. Founded by the Trustees of the Sorella Trust the "Danville Chair of Physiology."
1894. An Oil Portrait of Peter Redfern, M.D., Professor of Anatomy and Physiology 1860-93; presented by the Subscribers.
1894. Subscribed, and raised by a Fancy Fair, about £8,000 for the erection of a College Union.
1895. Given by Her Majesty's Commissioners of the Exhibition of 1851 the nomination to a Scholarship of the value of £150 per annum, tenable for two, or, under special conditions, for three years, as above.

Università di Torino.

University of Toronto, Medical School.

DONATIONS TO THE NATURAL HISTORY MUSEUM.

A considerable number of donations have been received from friends, among which the following may be mentioned:—

Bear and Fox, presented by David Walker, esq., M.D., a former student of the College.

Collection of Shells presented by Mrs. M'Gee, widow of the late Dr. M'Gee.

Casts and specimens of extinct animals, presented by the Earl of Enniskillen.

Five very rare Birds from Yarkand, presented by Dr. Scully, Indian Medical Service.

Collections of Japanese Birds, prepared and presented by Dr. S. Campbell, Fleet Surgeon, R.N.

Collections of Animals, chiefly Marine, from the East Coast of Africa and Zulu Archipelago, presented by Lieut. Dixon, R.N.

Miscellaneous specimens, presented by Staff-Surgeon W. Anderson, R.N., a former student of the College.

Large collection of Indian birds, some of considerable rarity, presented on various occasions by Dr. Cunningham, Professor of Physiology, Medical College, Calcutta.

Specimens of North American birds and Irish fishes, presented by G. D. Ogilby, esq., a student of the College.

Collection of Animals and Minerals from Australia, presented by Edward Leslie Pooler, esq., M.D., a former student of the College.

Collection of Animals from the New Hebrides, &c., presented by James Dunlop, esq., M.D., Surgeon R.N., a former student of the College.

Collection of Animals from Sumatra, presented by John B. Graham, esq., M.D., a former student of the College.

Collection of Birds from the Himalayas, presented by Alexander Porter, esq., M.D., Brigade Surgeon, H.M. Indian Army, a former student of the College.

Collection of Reptiles from South Australia, presented by Edward Leslie Pooler, esq., M.D., a former student of the College.

Very fine specimen of *Goliathus Duryi* from West Africa, presented by R. J. M'Keown, esq., M.B., a former student of the College.

Two fine specimens of the remarkable New Zealand lizard, *Sphenodon*, presented by James Young, esq., M.D., New Zealand, a former student of the College.

A fine specimen of *Manis longicaudata*, and a queen Termite or White Ant, presented by Captain R. A. I. Irvine.

A collection of dried plants and other objects from Ulster, presented by Hugh Hyndman, esq., LL.D., a former student of the College.

A fine skull of Hippopotamus, presented by George Gray, esq., M.D., J.P., Newcastle, co. Down, a former student of the College.

A collection of Botanical specimens, presented by Henry Hanna, esq., M.A., B.Sc., Demonstrator of Botany and Palaeontology, Royal College of Science, Dublin.

A curious small Shark (*Euprotomiscus Laborii*), obtained by Captain Patey of the ship "Mawhan," and presented to the Museum through the medium of Mr. Adam T. Barkley, Belfast.

A collection of Carboniferous Fossils from Scotland, presented by Mr. John White Shaw, B.A.

DONATIONS TO THE MEDICAL MUSEUMS.

A beautiful series of microscopical preparations, showing the texture of many organs of the body, was presented by Dr. Thiersch, of Leipzig, to Dr. Redfern, Professor of Anatomy, and by him generously handed over to the College.

A series of 59 slides, containing embryological sections prepared under his personal superintendence, was presented by Professor Kölliker to Dr. Redfern, and by him to the College.

A fine collection of over 200 vesical calculi removed by surgical operation in India by Surgeon-Major J. A. Cunningham, Indian Medical Service, a former student of the College, and presented by him.

A very large collection of specimens, formerly in Minto House, Edinburgh, presented by Professor Symington.

Various specimens presented by Professor Symington, M.D.; Professor Byers, M.D.; Professor Sinclair, M.D.; Dr. J. Lorrain Smith, Dr. G. St. George, Dr. H. R. Irwin, and Dr. W. M. Elliott.

Two specimens of Madura Foot, presented by Lieut.-Col. Adams.

Specimens of *Distoma Crassum*, presented by Dr. Close.

DONATIONS to the MUSEUM OF SANITARY SCIENCE, Queen's College, Belfast, with an Alphabetical List of Names and Addresses of Donors.

DIVISION A.—Science in relation to Hygiene.—Meteorology.

Donations.	Presented.
1. 1 Barograph or Self-acting Registering Barometer.	By the Curator.
2. 1 Terrestrial Radiator Thermometer.	By the Curator.
3. 1 (Six's) Maximum and Minimum Thermometer.	By the Curator.
4. 1 Wet and Dry Bulb Thermometer (Mason's Hygrometer).	By the Curator.
5. 1 Kew Barometer (Negretti and Zambra).	By the Curator.
6. 1 Strawson's Thermometer Screen (Negretti and Zambra).	By the Curator.
7. 1 Hearson's Patent Biological Incubator.	By the Curator.

DIVISION B.—Construction and Sanitary Apparatus.

Donations.	Presented.
8. 1 Set of Hygienic Models for demonstrating House Construction.	By the Curator.
9. Models of various forms of the most modern Water Closets, Sewer Pipes, and various Disconnecting Traps, and Illustrated Catalogue of Modern Baths and Bath Fittings.	By Mr. George Jennings, Stangate, London, per James Munce, Esq., M.I.C.E., Assist. Borough Surveyor, Belfast.
10. Models of Sanitary Traps, Bends, Gullies, and Interceptors.	By Messrs. W. Harriman and Co., Newcastle-on-Tyne, per James Munce, Esq., M.I.C.E.
11. Models of Water Closets and Wash Hand Basins.	By Mr. Templeton, Dublin, Representative of Messrs. Shanks & Co., Glasgow, per James Munce, Esq., M.I.C.E.
12. Specimens of Lead Pipes removed from buildings, showing the injuries to which lead pipes are liable.	By Mr. Smylie, Building Inspector, City Corporation, Belfast.
13. Model Brick Walls showing— 1. First Class Work—9-inch Wall on proper footings, showing Dump Course, Liner Asphalt; Backing, perforated Brick; Facing, selected solid facing; Bond, Flemish; one end built as quoin, the other toothed.	By James Munce, Esq., M.I.C.E.

Donations.

Presented.

2. Second Class Work—9-inch Wall on proper footings showing junction with 14-inch wall; Damp Course, Common Felt; Backing, Perforated Bricks; Facing, selected Bricks; Bond, English; one end shows 14-inch quoin, the other is toothed. Three courses stretchers to one course headers is sometimes called Old English Bond. It is frequently used in Belfast.
3. Third Class Work, generally known as Jerry Work—No footings; 9-inch wall; Damp Course, none; Facing, various bricks; Backing, do.; Bond, nondescript; one end built on, and the other toothed.
14. Pasteur (Chamberland) Filters, with pressure for attachment to water service pipes, and one Filter without pressure for houses. By Messrs. Defries and Son, 147, Houndsditch, London, E.C.
15. Plans and Sections of Filter Beds at Belfast City and District Water Commissioners' Waterworks at Old Park, Belfast. By Messrs. L. L. Macassey, and Sons, Engineers, 7, Chichester-st., Belfast.
16. Model of Water Filter Beds at Old Park, Belfast, half full size. By Mr. Fred. W. M'Cullough, Engineer to Belfast Water Commissioners.
17. 1 Case of Specimens showing the various kinds of Stone, Brick, and Wood used in the construction of the Belfast City Hall. By Messrs. H. and J. Martin, Ltd., the Contractors for the Belfast City Hall, Ormeau Building Works, Belfast.
18. 1 Model Mason's Refuse Gasifier, for the Destruction of Town Refuse. By Messrs. W. F. Mason, Ltd., Longsight, Manchester.
19. Plans, Drawings, and Sections of the System of the Main Drainage of Belfast. By J. C. Bretland, Esq., M.I.C.E., City Surveyor of Belfast.
20. Plans of a Set of Model Workmen's Houses. By Mr. G. A. Boyd, Assist. Borough Surveyor of Belfast.
21. Plans and Sections of a Model Villa near Belfast. By Messrs. Young and Mackenzie, Architects, Wellington-place, Belfast.

Heating, Lighting, and Ventilating.

Donations.

Presented.

22. Musgrave's Patent Slow Combustion Stove. By Messrs. Musgrave and Co., Belfast.
23. Sydenham Extractor Ventilator. By Messrs. Musgrave and Co., Belfast.
24. 1 Bleaheim's Gas Stove. By Messrs. Charles Wilson & Sons, Carlton Works, Leeds.

Donations.	Presented.
25. 1 Wilson Breakfast Cooker.	By Messrs. Charles Wilson and Sons, Leeds, per James Stelfox, Esq., Manager, Corporation Gas Works, Belfast.
26. Eureka Gas Cooking Stove.	By Messrs. John Wright and Co., Thimble Mill Lane, Birmingham.
27. 1 Wright's Boiling and Grilling Stove.	By Messrs. John Wright, & Co., Birmingham, per James Stelfox, Esq., Belfast.
28. Set of Models showing Boyle's system of Ventilation as applied to Buildings and Ships.	By Messrs. Robert Boyle and Sons, 64, Holborn Viaduct, London, S.E.
29. 1 Fletcher's Instantaneous Water Heater.	By Messrs. Fletcher, Russell and Co., Thyme-st., Warrington, per James Stelfox, Esq., Belfast.
30. 1 Fletcher's Gas Heating Stove.	By Messrs Fletcher, Russell and Co., Warrington, per James Stelfox, Esq., Belfast.
31. 2 Welsbach Incandescent Gas Lamps.	By James Mageean, Esq., Manager, Welsbach Incandescent Gas Light Co., 75, Royal Avenue, Belfast.
32. 19 Specimens of the Products made from Paraffin.	By James Grant, Esq., Manager for Belfast of Messrs. The Young Paraffin Light and Mineral Oil Co., Ltd., Scotland.

DIVISION C.—Personal and Domestic Hygiene—Foods.

Donations.	Presented.
33. 25 Specimens of the various constituents of Milk in glass jars, showing the contrast between the Milk from the Human Being and Milk from the Cow, Goat, Ass, and Mare respectively.	By the Aylesbury Dairy Co., 31, St. Petersburg-place, Baywater, London, W.
